

## **Sustainability & Quality Policy**

Kuntz Electroplating Inc. (KEI) is one of North America's largest and most advanced suppliers of premium plated and painted interior and exterior components for original equipment manufacturers.

As a responsible corporation we are committed to sustainability and operational excellence by

- Protecting human health and the environment;
- Setting quality and environmental objectives and targets;
- The prevention of pollution;
- Fulfilling our compliance obligations;
- Being customer focused;
- Meeting or exceeding our customer requirements through best-in-class quality, delivery and service; and
- Continuously evaluating and improving our processes and services.

In this regard, we have implemented and maintain Quality and Environmental Management systems in which we strive to

- Foster awareness through education and training;
- Improve the socio-economics of our business;
- Integrate sustainable development into our operations;
- Conserve natural resources, and support their sustainable use;
- Reduce the use of toxic substances and the generation of wastes; and
- Promote strategies to reduce, reuse and recycle across all business activities where possible;

The joint efforts of the employees, supervisors, management, contractors, customers, suppliers, and visitors at KEI ensure the measurable success of the quality and environmental management systems.
